Discovered refilled products?

Losing control of your distribution channels?

Counterfeiters nibbling away your market share?

Bsecure has the solutions

Bsecure, a full-service brand protection consulting and integration organization, will equip your company with anti-counterfeit and Track & Trace tools. We offer the latest front-line technologies designed especially to combat counterfeiting and diversion of **tobacco, wine and spirits, food and consumer goods**. Our industry expertise and cutting-edge technologies will help you to control your distribution, prevent poor quality copies of your brand from entering the market, avoid adulteration and tampering.
