## Protect Your

- Brand
- Customers
- Revenues

Do you control your supply chain?

Losing revenues and market share due to counterfeiting and diversion?

Are your distribution channels protected?

## **Bsecure has the solutions**

Bsecure, a full-service brand protection consulting and integration organization, will equip your company with anti-counterfeit and Track & Trace tools. We offer the latest front-line technologies designed especially to combat counterfeiting and diversion of electrical, electronic and computer equipment.

We provide industry expertise and cutting-edge technologies that help you to control your distribution, assist customs officials and avoid merchandise theft and damage.
